TROY CHECK PRINT

Streamline processes and enhance security for your business check printing with TROY Check Print. Whether you print hundreds of checks or only a few each month, TROY Check Print provides the features you need to create, authorize, print and report checks from your accounting system.

Major Selling Points

User Friendly
Each authorized user can print checks from multiple accounts with a few short secure steps.

Secure
Use of USB eToken and password ensures only authorized personnel can print checks. Check data and signatures are further protected by encryption features.

Efficient
Eliminates cost of pre-printed check stock and need to manually sign checks.

Flexible
Supports any number of workstations using the same SQL Server database. Additional eToken keys may be ordered as needed for each authorized user.

Easily Authorize, Print and Report Checks:

Controlled Check Production
- Pre-defined signing rules can be configured to release checks for print only when specific requirements have been met.
- Encryption Only Service encrypts data from source ERP system before processing.
- Software signatures are encrypted to the owner's unique license number.

Enhanced Check Security
- TROYMark™ creates a repeating "watermark" to make fraudulent alteration virtually impossible.
- Personalize checks for every account with check styles and logos.
- Check copies and reprints can be printed only by authorized users.

Added Features
- Check Register reports the status of each check and can be previewed, printed, or exported for electronic storage.
- SQL Server database provides speed and efficiency for multiple users.
- Positive Pay Export creates positive pay files for submission to bank.
- Audit Trail reports allow check printing activity to be recorded for system tracking purposes.
- Manual Checks Module available for creating on demand checks.

Complete the Solution

- **TROY MICR Security Printers** - Fonts are embedded in the printer, reinforcing security; locking trays help protect against theft of your blank check stock.
- **TROY MICR Toner Secure** - A patented formula that helps deter fraudulent alteration by releasing a red dye when chemical removal of toner is attempted with a solvent.
- **TROY MICR UV Toner** - Documents printed with TROY MICR UV Toner appear as standard black to the naked eye but fluoresce blue under UV verification light for an additional layer of security.
- **TROY Check Paper** - With a full selection of stock to choose from, TROY can be your one stop solution for all of your check printing needs.

TROY Group 2014 B

TROY Features

Check Signing Controls
✓ Signature Groups - eToken allows signing officers to control print authorization
✓ Signature Line Limit - prints additional line only when check exceeds configured amount limit
✓ Low Amount Limit - allows ability to print one signature based on check value
Unlimited Encrypted Signatures - protects the signature within the software

Printing Features
✓ Check Numbering - internal numbering schemes are available
✓ Check Sorting - sort checks in batch by critical field info
✓ Paper Saving Feature - allows for overflow printing on blank paper
✓ Manual Checks - provides ability to create one off manual entry checks
✓ Encryption - secures check data
✓ Check copies and reprints can be printed only by authorized users.

Check Personalization Features
✓ Graphics - import your own corporate logos
Unlimited Styles - the ability to create a variation of check styles which can be used for different formats
✓ Amount Configuration - customize format in which the check amount is printed

User Account Personalization Features
Unlimited User Names - allows unique user options to be set for each user name

Additional Features
Unlimited Interface to Accounting Systems - integrates with current accounting systems
✓ Positive Pay Module - creates positive pay files for submission to bank
✓ Check Detection - monitoring of previously printed checks

• Windows Server 2003 and higher

Prerequisites
• Windows Installer 4.5
• SQL Server 2005, 2008, or 2012
• eToken PKI Client
• .NET Framework 3.5 SP1

Display
• Super VGA or higher resolution
• Minimum: 800x600 pixel

Processor
• Pentium III-compatible processor or faster
• Minimum: 1.0 GHz
• Recommended: 2.0 GHz or faster

Memory
• Minimum: 512 MB for SQL Server Express with Tools, and SQL Server Express with Advanced Services
• Recommended: 1.024 GB

Part Number	Description
02-30004-001	TROY Check Print Software - One TROY Check Print software license for use with 1 SQL database and up to 10 bank accounts.
02-30004-001DR	TROY Check Print Software Disaster Recovery - Duplicate of TROY Check Print Software for disaster recovery.
02-30004-002	TROY Check Print Software Additional License - One TROY Check Print software license for use with 1 additional SQL database and up to 10 bank accounts.
02-30004-003	TROY Check Print Software with Manual Checks - One TROY Check Print software license including Manual Checks for use with 1 SQL database and up to 10 bank accounts.
02-30004-003MC	TROY Check Print Software with Manual Checks Additional License - One TROY Check Print software license for use with 1 additional SQL database and up to 10 bank accounts.
02-30004-003DR	TROY Check Print Software with Manual Checks Disaster Recovery - Duplicate of TROY Check Print Software with Manual check capability for recovery purposes.
02-30004-004	TROY Check Print Manual Checks Software Stand Alone - One TROY Check Print Manual Checks software license for use with 1 SQL database and up to 10 bank accounts.
02-30004-004SA	TROY Check Print Software Stand Alone Additional License - One TROY Check Print software license for use with 1 additional SQL database and up to 10 bank accounts.
02-30004-004DR	TROY Check Print Manual Checks Software/Stand Alone Disaster Recovery - Duplicate of TROY Check Print Manual checks for recovery purposes.
02-30004-005	TROY Check Print Positive Pay - Enables Positive Pay module and includes configuration of one positive pay specification.
02-30004-005DR	TROY Check Print Positive Pay Disaster Recovery - Duplicate of Positive Pay implementation for off site disaster recovery purposes.
02-30004-006	TROY Check Print Positive Pay Configuration - Set up of additional positive pay specification.
02-30004-007	TROY Check Print USB User eToken - USB Key configured to provide user authentication / access to software.
02-30004-007D	TROY Check Print Duplicate USB User eToken - Exact Duplicate of USB User eToken recommended for disaster recovery or replacement
02-30004-008	TROY Check Print Configuration - Entry and set up of up to 10 bank account/company entities.
02-30004-009	TROY Check Print Import Script Interface - Mapping of customer's accounting application check output for TROY Check Print import.
02-30004-010	TROY Check Print Style Layout - Layout and design of check style.
02-30004-011	TROY Check Print Software Signature - Scanning and encryption of software signature.
02-30004-012	TROY Check Print USB Signature eToken - Scanning and encryption of software signature and USB eToken encoded for signature authorization.
02-30004-012D	TROY Check Print Duplicate USB Signature eToken - Duplicate of Scanning and encryption of software signature and USB eToken encoded for signature authorization.
77-30004-001	TROY Check Print Software Annual Support - One Year of telephone and e-mail software support.
77-30004-003	TROY Check Print Software with Manual Checks Annual Support - One Year of telephone and e-mail software support.
77-30004-004	TROY Check Print Manual Checks Software Stand Alone Annual Support - One Year of telephone and e-mail software support.
77-30004-005	TROY Check Print Positive Pay Annual Support - One Year of telephone and e-mail software support.
77-30004-013	TROY Check Print Remote Installation Support - Single desktop installation assistance and one hour of training support.
