All forms have been officially approved

We work closely with government agencies to ensure that we offer the most complete and compliant line of forms available in the industry today. All forms meet rigid IRS and SSA printing standards in order to pass their OCR (Optical Character Recognition) requirements. All changes and updates have been made and new forms added. In addition, all forms have been approved by the Federal Government as well as State and City Tax Agencies.

Tax forms and sustainable forest paper

Each year we strive to address our customers concerns such as the environment.

We stay on course as we continue to source our paper from sustainable forest. Why? We've learned that the process used to produce recycled paper actually results in a larger carbon footprint than virgin paper sourced from well managed sustainable forests. In 2016 there's no such thing as being too green.

Introducing the TaxForm Wizard

We have an online tool to help you find the right tax form... Just go to www.taxformwizard.com and get started. Put the Wizard to work. It's the easiest way to find the right form for your needs.

Use **Quick Search** to enter the **form number** from this catalog or enter the **form type** (W-2, 1099). Not sure? Then click the **Get Started** button on the left and answer **four simple questions** to find your form.

Then just tell the Wizard what you need: **Type of form**, **Software**, **State**, **Type of printer**. Then just click on the **Find Form** button.

The Wizard will give you a list of suggested forms. You can review the list and print it or edit the Tax Form Wizard criteria for different results. Then click **View** to see a PDF image of the form

The Wizard will then download a PDF of your selected form. You can enlarge the form to see detail, print the form to compare or call us for an actual sample.

How to order: How many forms do I need?

We offer a lot of different configurations... some forms come with a single form taking up the entire sheet. Other forms may have two, three or even four forms on a single sheet. **So we've made it simple...** how many employees or recipients will be getting forms? That's how many forms you need! Ordering Tax forms made simple? Well, we're trying!

Pressure Seal Tax Forms are self-mailing forms that are growing in popularity due to the convenience of one-piece mailing and the built-in security of a sealed form. They are printed with the heat resistant inks required by laser printers on 28# white ledger bond. Some forms are blank for software that prints the entire form. All forms have miniscule glue capsules around the edge that burst when run through a sealing machine and create a secure self-mailer. No envelopes needed!

All forms come 500 per package – 1 page equals 1 form

Form 7144 - Twin Set Mailer

See these and all other forms on The Wizard

www.taxformwizard.com

Basic W-2 Information for Continuous Forms

The Federal Government requires that all W-2's be submitted in 11" segments consisting of two forms per page. If filing 250 or more W-2 forms you must submit them electronically. Our continuous W-2 forms are available as One-Wide, Twin Sets, Two-Wide and and Self Mailers in carbonless sets of 4 parts, 6 parts and 8 parts. We use the official IRS format so our continuous W-2 forms will fit the majority of software programs. If in doubt, you can view full size images of the forms at www.taxformwizard.com or request samples.

One Wide Continuous Form W-2

All plies are crimped on the left and right margins. Employee copies are glued on the right.

Form # Description/Sequence

- 98114 4-part Carbonless: Copy A, B, C and 1/D
- 98116 6-part Carbonless: Copy A, 1/D, B, C, 2 and 1/D
- 98118 8-part Carbonless: Copy A, 1/D, 1/D, B, C, 2, 2 and 1/D

Envelopes: Order #6666-1 Double Window Envelope or 6666-2 Self-Seal Double Window Envelope. **See page 10.**

W-2 Twin Sets for better printing through fewer plies

We separated our one-wide 6-part and 8-part forms above to make two 3-part or 4-part sets. This ensures more legible print when running multiple plies. In other words, you run two 3-part sets instead of one 6-part set. Forms 76003 and 76403 make up one six part set while Forms 76004 and 76404 make up one 8-part set. Employer form pictured at left.

Form # Description/Sequence

- 76003 3-part Carbonless: Copy A, 1/D and 1/D (Employer Form)
- 76403 3-part Carbonless: Copy B, C, 2 (Employee Form)
- 76004 4-part Carbonless: Copy A, 1/D, 1/D, 1D (Employer Form)
- 76404 4-part Carbonless: Copy B, C, 2, 2 (Employee Form)

W-2 Continuous Form Self Mailers - No envelopes needed

Our W-2 Continuous Form Self Mailers offer convenience, security and time savings as the employee copies are inserted in a pre-sealed mailer. The envelope is not available with postal indicia. If you have high speed printers or one with light strike impressions, we recommend the Twin Set mailers shown below.

Form # Description/Sequence

- 71444 4-part Carbon Out: Copy A and D; Carbon In: Copy B and C
- 71446 6-part Carbon Out: Copy A, 1, D; Carbon In: Copy B, C, 2

W-2 Twin Set Mailers provide clearer print quality

You can enjoy the convenience of self-mailers with the legibility of Twin Sets with these forms. We separated our 6-part and 8-part mailers to make two 3-part or 4part sets that are collated to separate the employer and employee forms. An Employer Set and an Employee Set are run through the printer in separate passes. This allows the form to run on printers that have limited print positions or where legibility through five or more plies is a problem. Mailers feature *Save-A-Ply* construction for maximum legibility.

Form # Description/Sequence

- 71445 **6-part Set: Employee** 4-part Carbon/ Interleaved: Out Copy 1/D; Copy B, C and 2 are in pre-sealed mailer.

W-2 Form Copies

W-2 Forms are made up of the following Employer and Employee copies. Order the number of copies appropriate to your state and/or local taxing agency.

Employer Copies

- Copy A - Federal copy to be filed with the Social Security Administration
- Copy 1 - For State, City or Local taxes
- Copy D - For Employer's records

Employee Copies

- Copy B - To be filed with Employee's Federal tax return
- Copy C - For Employee records
- Copy 2 - To be filed with Employee's State, City or Local tax return

Electronic Filing

Employers who file wage information electronically to the SSA do not need to print Copy A and may choose to print only the employee copies. For those filers we have special continuous form sets with only the copies they need:

One-Wide Non-Mailer

Form #	Description/Sequence
75213	3-part: Copy B, C, 1/D
75214	4-part: Copy B, C, 2, 1/D
76403	3-part: Copy B, C, 2
76404	4-part: Copy B, C, 2, 2

One-Wide Self-Mailer

A Self Mailer that eliminates the SSA copy. The top sheet/form is an Employer File or State/Local File Copy (outside mailer). Employee forms are inside the mailer. All inside parts are shown in bold type.

Form # Description/Sequence

Carbon with postal indicia capability

75052	3-part: Copy 1/D, B, C
75053	4-part: Copy 1/D, B, C, 2
75054	5-part: Copy 1/D, B, C, 2, 2
